How to Verify the Creapure Seal

7Nutrition Creatine Creapure 500 g

Use the official Creapure website to check the Quality Seal (QS) code printed on your tub.

1. Find the code

Locate the Creapure quality seal on the label. Read the six-character QS code printed at the bottom left of the seal.

2. Open the official verification page

<https://www.creapure.com/en/creapure/the-creapure-quality-seal/>

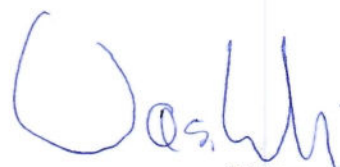

3. Enter the code exactly as printed

Type the code into the "Quality Seal Code" field and select "Search". Read the result and the licensed partner identified by Creapure.

If the code cannot be read or the result is unclear, email 7Nutrition at sales@7-nutrition.com with clear photos of the seal, the full label and the batch number.

For confirmation that Maghreb Nutrition is an authorized 7Nutrition distributor in Morocco, contact the same email address and quote "Maghreb Nutrition - Morocco".
